GENERAL TRADE. During the past week the general trade of the city was without animation. The grocery houses have had a moderate order trade with the country. The discrimination against this city by steamboats running below is preventing much trade we might otherwise do. In produce the demand for corn was active all week, and prices advanced; at the latter end of the week free receipts had caused some reduction, and there was yesterday some weakness even at the lower rates. Cornmeal has also been active, with a good demand, and at better rates, but there was a pause in the demand yesterday; holders claimed a firm market, but others expressed a contrary impression. On both corn and meal there is much difference in views as to the immediate future of prices. Oats sold lower yesterday, and bran dragged at very low rates compared with those of a week ago. Hay has been very quiet, with some advance on choice; receipts have been so

advance on choice; receipts have been so light of late that expectations of some recu-peration from the prevailing low rates are entertained. Flour is heavy and low, with nothing animated in the trade; the greater probability of peace affects it unfavorably. Tennessee new potatoes are now coming in daily for shipment, but so forward is the season north that a short demand and at low prices is all that is expected, which is unfortunate for growers. Further south an active spring vegetable business has been done. The New Orleans Picayune, of Saturday, said: "On Tuesday last 800 bushels of snap beans were forwarded by the Great Jackson route from this city to Chicago, besides the usual shipments of rotatoes onlying beets concumbers.

The last New York Bulletin's weekly review said: "The stronger indications noted in our last review have been fully verified, and for New York spots were quiet and firmer; futures track car-loads have been sold as low as \$2.75; on the track car-loads have been sold as low as \$2.50
